Project Proposal Queen of Peace Center 2016

Narrative

The narrative provides an overview of the proposed project. It provides sufficient information to understand the scope of the project, the clients to be served, the cost of the proposed activities, and the System Performance Targets and Priorities that have been adopted by the St. Louis CoC.

Scope & Clients to be served: The purpose of the new project is to provide gender-focused, comprehensive and collaborative permanent supportive housing (PSH) and recovery support services to chronically homeless women and their families who have substance use disorders (SUD) and/or co-occurring disorders (COD). In recognition of HUD's commitment to the housing first model QOPC will also admit women and their children with an indicated VI-SPDAT score for PSH, but do not choose to enroll in the full scope of services offered. QOPC plans to change the current-funded transitional housing program into a permanent support housing program. The scope of the new project is to provide chronically homeless women and their families' access to permanent supportive housing through 12 single room occupancy units and 4 scattered (2 bedroom) site units. Currently, the Archdiocese of St. Louis owns the property and QOPC, a Catholic Charities organization, master leases the property. Queen of Peace Center will use guidelines set forth by the Corporation for Supportive Housing (CSH) in order to ensure the best model of PSH is being utilized. QOPC will operate permanent supporting housing according to CSH's *Dimensions of Quality Supportive Housing* report. Guidelines for quality PSH include tenant-centered, accessible, coordinated, integrated and sustainable. The new PSH program will ensure tenants are prioritized and all staff at QOPC is committed to supporting tenants to flourish. In addition to the supportive services that will be available from the new PSH program, homeless women and their families will have access to comprehensive services. PSH will be integrated so that women and their families can form relationships with key members of the community and ultimately the PSH program will be sustained in the long run.

Cost

Comprehensive permanent support housing services will be available to 16 women and 6 children at any given time. The total cost for 12 SRO's units and 4 scattered site units new PSH program is \$599,317 and QOPC is requesting \$449,317. The transition from transitional housing to PSH has ultimately lowered the total cost of care for QOPC. This cost includes case management, childcare, transportation, staff, and services to ensure each unit is maintained properly. Supportive services for the new program include evidence based practices to assist with housing, employment, substance use and behavioral health services. Women and their families enrolled in QOPC PSH program will have access to a comprehensive array of treatment and services in addition to the newly funded supportive PSH services.

System Performance Targets and Priorities

In accordance with the City of St. Louis CoC Target Measures and Priorities, QOPC will target 3 out of the 5 identified priority populations: (1) Chronically homeless, and (2) homeless families with Children under 5,(3) unsheltered, high mortality risk homeless (SUD/COD). Consistent with City of St. Louis COC Target measure for 2016, QOPC aims to achieve:

- 47% participants will exit to permanent housing
- 98% of participants will be stably housed for 6+ months
- 70% of participants will obtain cash income
- 15% of participants will obtain employment income
- 73% of participants will receive non-cash benefits
- 95% occupancy rate for year
- 17% of participants may return to shelter

Queen of Peace Center is committed to adhering to the performance measures as defined by the CoC and HUD. This will be achieved via self-monitoring through the use of the APR and internal Continuous Quality Improvement. Program staff will generate an APR each month via HMIS to ensure that the program is on target to reach the goals as defined by HUD and that input data matches the tenant records. Any discrepancies that are identified within the reported data, program supervisor will consult with staff and IGA if necessary to determine the source of the discrepancy. Corrective action will be taken to ensure that reported data is of the highest quality with the greatest level of both accuracy and integrity.

Client Population

The proposal should clearly identify and describe the characteristics and needs of the clients to be served by the project.

Need. In FY 2015, in St. Louis 3,337 individuals were admitted to substance use treatment facilities, with 38% being female and 347 individuals reporting being homeless at time of admission. A total of 40% of individuals who sought treatment in St. Louis City for substance use reported heroin as their primary drug. Additionally, 3,339 females sought treatment for psychiatric services, and approximately 45% of the total individuals who sought psychiatric treatment reported being homeless or housing unknown upon admission.¹ In January of 2014, the City of St. Louis Department of Human Services, Homeless Services Division completed a point-in-time (PIT) census count. The PIT census count revealed 1,328 homeless individuals in St. Louis City, of whom, 112 were considered chronically homeless.^{15j} The clear connection between substance use disorders and homelessness has been established, however an increased effort needs to be directed towards comprehensive care in the form of housing, treatment and services.

Client Characteristics. The “typical” client profile of a QOPC participant is a 35-year old, African American woman, (averaged from the age range of 18-55), who experiences chronic homelessness, is addicted to heroin, alcohol, cocaine, and other opioids or street drugs, has experienced trauma, and is dually diagnosed with a mental illness. It is also anticipated that a participant originates from a disinvested, urban core neighborhood or in the surrounding communities of the service area, having experienced and encountered a myriad of social inequities, challenges, and disparities. Multi-generational poverty, single-parent households, teen pregnancy, unemployment, lack of education, lack of healthcare options, high crime, lack of

transportation when residing in outlying areas, and socio-economic deprivation and stagnation are characteristics which permeate the communities where over 75% of the participants reside. *QOPC Data.* Presently, QOPC data indicates that women living in Sponsor-Based shelter plus care housing during FY 2015 included; 247 adults and children, with 181 being adult females, 89% of clients served were African American. The data indicates 89% of those living in permanent supportive housing were African American, and 11% were Caucasian. The majority of clients were aged 45-54 (21%), with 32% diagnosed with a mental illness and 94% reported substance use. Additionally, QOPC data from 1,303 female clients served over the last two (2) years shows that 20% (N=260) use IV injection as their primary route of drug administration, 22% (n=286) use IV injection as their secondary route of drug administration, 20% identify as lesbian, gay and/or bisexual, 25% have graduated from high school, 75% are unemployed, 54% have no primary health insurance, 28% are homeless and 40% have a child involved with the State's Children's Division and/or with a family member.

Organizational Capacity and Experience

The applicant should demonstrate a history of providing services to low-income individuals who are homeless, formerly homeless, or at risk of becoming homeless. The applicant should provide outcomes data from similar programs operated by the organization that shows the impact of the services provided. The applicant should describe already established relationships with other organizations in the community to show that the agency works with a broad network of providers to provide wrap around services to meet the needs of participants. The applicant should demonstrate the fiscal capacity to manage the project within the proposed budget.

Organizational Capacity. QOPC has been providing PSH to chronically homeless women and women who are homeless with children for 20 years through the Shelter Plus Care program and has been a major force in substance abuse treatment for 30 years. QOPC currently has 4 PSH sites totaling 48 units for homeless women and their children. In FY 2015, over 1100 individuals received housing assistance and over \$300,000 was spent in providing supportive services for those in need of housing services. Likewise, over 800 women and 299 children received treatment and services at QOPC last fiscal year. Of the total women served 49% improved daily functioning and 64% of children improved social-emotional skills. QOPC offers accessible evidenced-based practices that will provide support to the PSH program appropriate for at-risk women; Seeking Safety, Dialectical Behavioral Therapy (DBT), Trauma-Focused Cognitive Behavioral Therapy (TF-CBT), Trauma Recovery and Empowerment Model (TREM), Eye Movement Desensitization Reprocessing Therapy (EMDR), Motivational Interviewing (MI) and Community Support Services. These evidenced-based practices are complimentary for women who have experienced trauma and substance use and experience(d) homelessness. A tobacco treatment specialist is also available to provide education and skills for smoking cessation. QOPC's longstanding PSH program in conjunction with the treatment options and services that have been carved out over the last 30 years, leaves QOPC well-positioned to expand the PSH program and continue impacting chronically homeless women with SUD's and their families. *Community Collaboration.* Since inception in 1985, QOPC remains a reputable community organization for the treatment of women, their children, and families impacted by addiction.

The center has continued to build community partnerships in order to offer accessible quality treatment to women impacted by addiction and mental health problems who are chronically homeless, including the following: Saint Louis City and County Continuum of Care agencies, Female Drug Court, Department of Corrections, Probation and Parole, Saint Louis County and City Jails, local healthcare institutions, Mental Health Court, street outreach teams and Community Faith Based Organizations to name a few. Over the last 30 years, QOPC has built and maintained relationships in order to provide wrap-around services to meet the complex need of the population served.

Fiscal Capacity. QOPC plans to provide a 25% match of the total budget for the PSH program. QOPC continues to demonstrate financial capacity through the Missouri Department of Mental Health (DMH) for The Women and Children's Comprehensive Substance Abuse Treatment and Rehabilitation (CSTAR) program contract, as well as federal and local funding opportunities.

Service Plan

The applicant should show how the project will interact with the Coordinated Front Door Process and serve the priority populations established by the St. Louis CoC Committee. The applicant must provide a detailed plan for the delivery of services for each program participant based on the front door individualized assessments. The service plan should include services that meet the ability and needs of the participants. It should include housing focused case management that matches client's needs, tracks client's progress, and maintains program data for reporting. The applicant should explain how services will be identified, how individual plans will be developed and implemented, and how the case management will assist clients in accessing housing.

Through the provision of gender-specific, culturally sensitive services, which are individually tailored to maximize outcomes it is hoped the cycle of homelessness can be broken, substance use can be reduced and other behavioral health symptoms can be improved. In order to create *sustainable change*, culturally sensitive services and evidenced based practices will be offered to women who are chronically homeless and/or homeless with children. As a result of recent changes to the housing processes, QOPC seeks to transform the transitional housing program into permanent supportive housing services. This change will expand QOPC's PSH housing program in order to best meet the needs of the community.

Service Plan. The new PSH program will utilize St. Louis CoC coordinated front door entry process. Clients will go through the coordinated entry and get assessed via the front door process using the VI-SPDAT. Once the score is obtained, the client will get referred straight to QOPC. During intake at QOPC the population of focus will be assessed and diagnosed for the presence of co-occurring and substance use disorders will occur by a licensed clinician using DSM-V criteria, the Addiction Severity Index (ASI), and the Daily Living Activities-20 (DLA-20). Based on the initial intake assessment at QOPC, the client is assigned a treatment team comprised of a therapist and case manager who will conduct a qualitative interview of housing needs and an individual treatment plan will be generated to encompass the full scope of housing and service needs. Qualitative assessment will be used to capture housing preferences and barriers including

substance use disorders (SUD) and co-occurring disorders (COD), and develop an individualized housing support plan. Using a person-centered approach, all interventions and goals will be developed collaboratively with the client. The comprehensive assessment process will continue throughout the duration of treatment in order to encompass the successful completion of goals and to gauge when a change of course is necessary.

Individuals who choose to enroll in QOPC treatment will have access to a myriad of services to assist in housing support and recovery services including; diagnostic screening and clinical assessment, residential and/or outpatient services, individual and group co-occurring counseling, group education, case management, peer mentoring and recovery support, trauma recovery support, art therapy, primary health care referral and services, and psychiatric services. All QOPC case managers are trained Medicaid enrollment specialists. If women are eligible for Medicaid, the case manager completes a Medicaid application with the client. Additionally, all case managers at QOPC have experience with enrollment for various other benefit programs including SNAP and TANF. Additionally, some case managers will also be trained in SOAR enrollment to ensure women enrolled in PSH submit a thorough application packet to obtain SSI/SSDI as applicable in order to assist in support service pertinent to maintain housing stability.

QOPC recently adopted a new evidence based model designed to reduce homelessness for those living in permanent supportive housing. Those enrolled in PSH and QOPC services will have access to the Maintaining Independence and Sobriety through Systems Integration, Outreach, and Networking-MISSION Model in order to provide permanent support housing and recovery support to the population of focus. This model utilizes an integrative trauma-informed framework for treatment and service linkage to meet the various complex needs of homeless and formerly homeless individuals

The MISSION Model has evolved to provide housing and recovery support services for homeless and formerly homeless individuals with SUD/COD in a variety of settings, including community-based clinical settings and *is recognized by SAMHSA National Registry of Evidence Based Programs and Practices (NREPP)*. Research indicates that for 406 homeless individuals, the model has been successful in reducing use of illicit drugs, use of alcohol, mental health symptoms, hospitalizations, and violent behavior.ⁱⁱ

The major goals of the model are to (1) offer clients direct support to secure and maintain housing; (2) address substance use and mental health problems; and (3) reach employment and education goals. These goals are accomplished through the delivery of Dual Recovery Therapy, Critical Time Intervention Case Management, and Peer Support Services from the MISSION Team, case managers (CM) and Peer Recovery Support Specialists (PRSS). An employment educator will be co-located at QOPC to assist all participants enrolled in PSH with building skills pertinent to obtaining employment.

Trauma-informed considerations are weaved throughout the various program components in order to: (a) establish strong rapport; (b) provide on-going monitoring of trauma symptoms; (c) develop a safety plan as appropriate; and (d) provide referrals as needed.

The MISSION model and all of the components of the model can be effective supporting women enrolled in PSH, in achieving the desired outcomes of: reducing homelessness, reducing substance use, increasing mental health, increasing daily functioning, and increasing

employment/educational goal attainment.

Noteworthy, those who are not enrolled in QOPC services will still have access to treatment and services in addition to the services offered through the newly funded project. Participants who do not wish to participate, or who would benefit from linkage to other resources will be provided with linkage and referral information and connection as is reasonable and appropriate.

All client data is tracked in QOPC's electronic health records and through on-going charting. Those enrolled in the PSH program will meet with a case manager regularly who will input client data in order to continually assess the client's needs and progress to ensure each client's individual needs are met.

Participant Track & Reporting

The applicant should describe how the project will fully utilize the City of St. Louis HMIS system and will provide data to: track participants through the progression of services being provided, assess individual progress toward personal goals, evaluate the effectiveness of the services delivered and the effectiveness of the project toward achieving programs goals, report data on client characteristics, use of services, and expenditures to the funding agency.

QOPC new PSH program will use the HMIS data system contracted through CoC for all participants to capture the whole trajectory of client participation in the PSH program. Women enrolled in QOPC services will be charted through the electronic health records system, Claimtrak. Queen of Peace Center has been using Claimtrak, a certified electronic health record system since 2010. Claimtrak is a hosted EHR system that provides a 1) practice management system for registration/intake, scheduling, billing, case load management; 2) patient engagement tools including patient education, visit summaries, personal health records. Staff training and booster sessions are provided throughout the year. Claimtrak has been designed to be a complete solution for inpatient, outpatient and residential providers of behavioral health and human services, and as such has built-in capability for billing and accounting management. Through qualitative interviews and the use of Claimtrak QOPC can track service utilization, treatment plans/goals achieved, progress towards housing stability and sobriety, as well as general information including demographic data and cost of services utilized.

Dear Sir/Madam:

This responds to your May 23, 2016, request for information regarding the status of your group tax exemption.

Our records indicate that you were issued a determination letter in March 1946, that you are currently exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, and are not a private foundation within the meaning of section 509(a) of the Code because you are described in sections 509(a)(1) and 170(b)(1)(A)(i).

With your request, you provided a copy of the *Official Catholic Directory for 2016*, which includes the names and addresses of the agencies and instrumentalities and the educational, charitable, and religious institutions operated by the Roman Catholic Church in the United States, its territories, and possessions that are subordinate organizations under your group tax exemption. Your request indicated that each subordinate organization is a non-profit organization, that no part of the net earnings thereof inures to the benefit of any individual, and that no substantial part of their activities is for promotion of legislation. You have further represented that none of your subordinate organizations is a private foundation under section 509(a), although all subordinates do not all share the same sub-classification under section 509(a). Based on your representations, the subordinate organizations in the *Official Catholic Directory for 2016* are recognized as exempt under section 501(c)(3) of the Code under GEN 0928.

Donors may deduct contributions to you and your subordinate organizations as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to them or for their use are deductible for federal estate and gifts tax purposes if they meet the applicable provisions of section 2055, 2106, and 2522 of the Code.

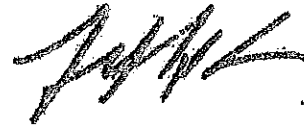

Subordinate organizations under a group exemption do not receive individual exemption letters. Most subordinate organizations are not separately listed in Publication 78 or the EO Business Master File. Donors may verify that a subordinate organization is included

in your group exemption by consulting the *Official Catholic Directory*, the official subordinate listing approved by you, or by contacting you directly. IRS does not verify the inclusion of subordinate organizations under your group exemption. See IRS Publication 4573, *Group Exemption*, for additional information about group exemptions.

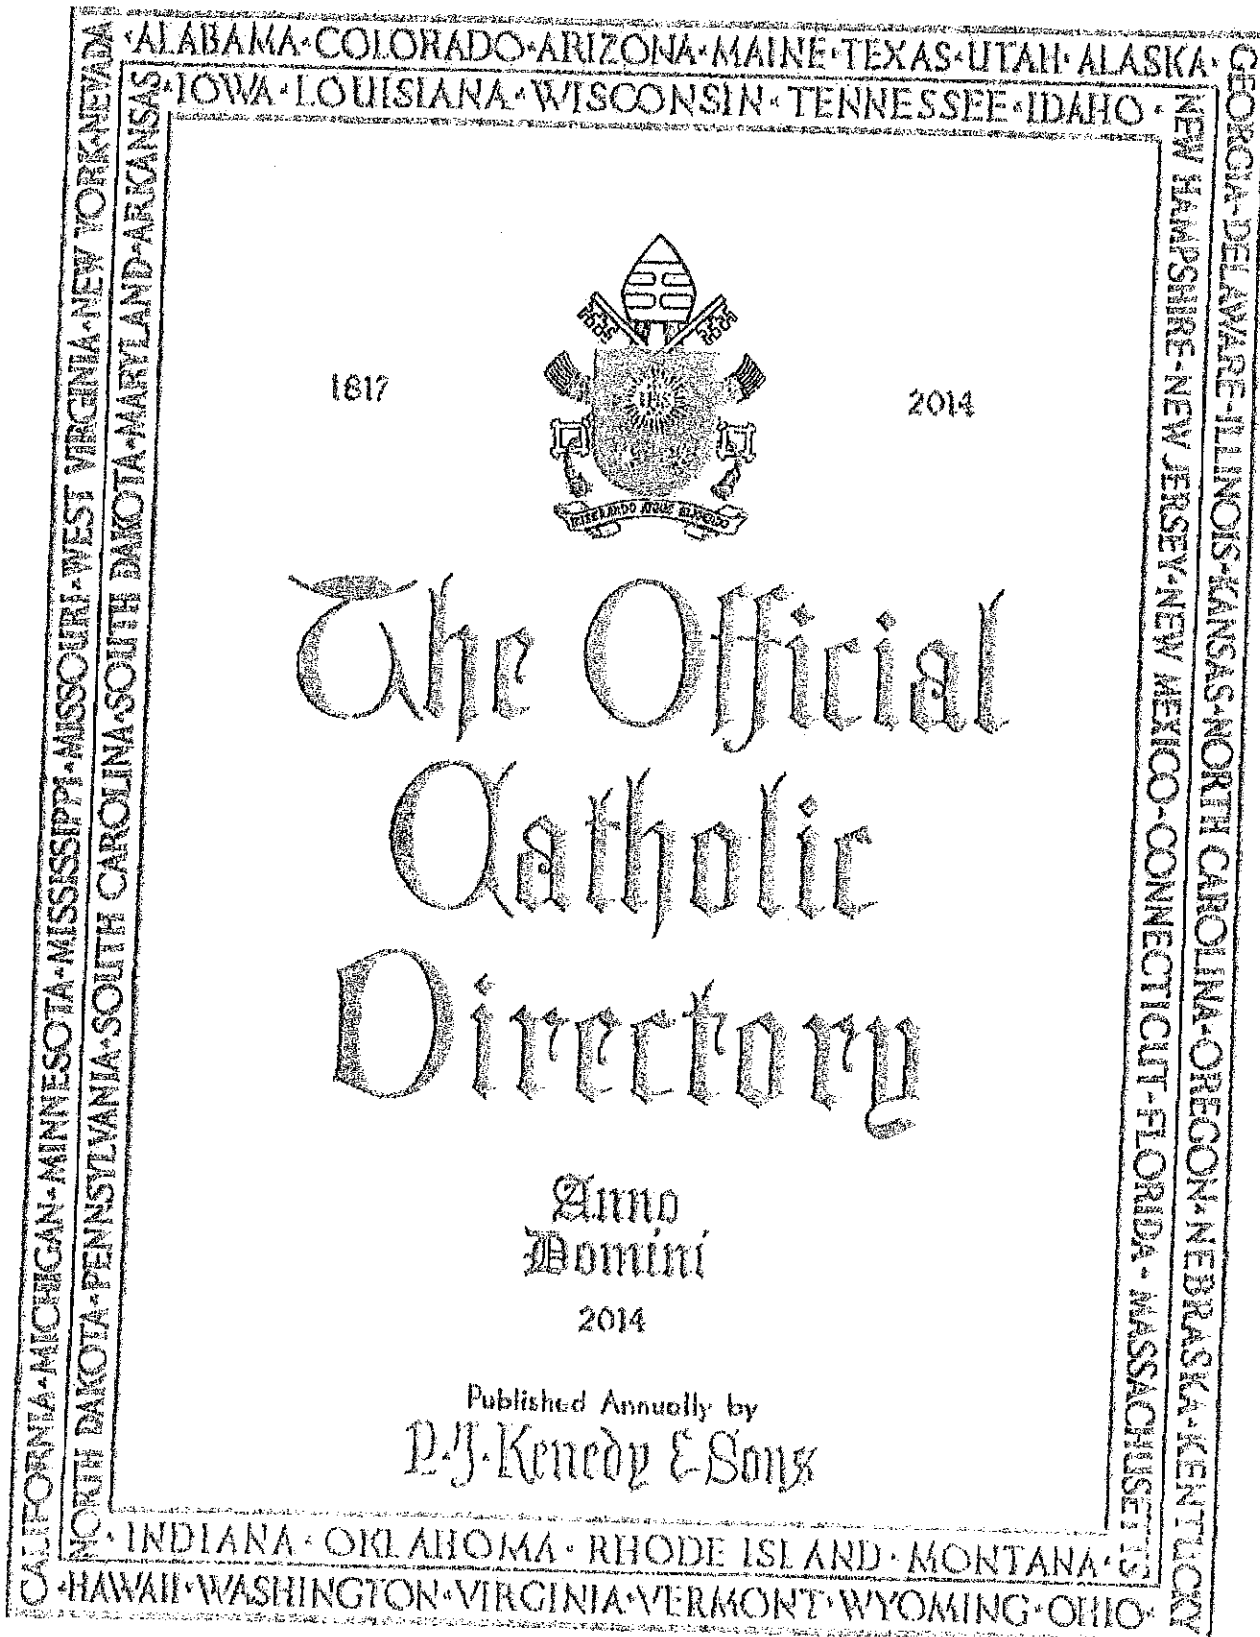

Each subordinate organization covered in a group exemption should have its own EIN. Each subordinate organization must use its own EIN, not the EIN of the central organization, in all filings with IRS.

If you have any questions, please call us at the telephone number shown in the heading of this letter.

Sincerely,

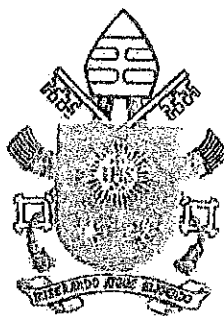

A handwritten signature in dark ink, appearing to read "Jeffrey I. Cooper", written in a cursive style.
